

## End-of-life Notice

January 10th, 2017

Septentrio is committed to offer its customers with the best possible performance on its GNSS receivers while still having the flexibility of scalable accuracy and features included on its products. To ensure this commitment Septentrio intends to discontinue supply of the receiver models mentioned below and replace them with the latest technology available.

### Products affected

The End-of-life is targeted to the replacement of **AsteRx-m** and **AsteRx-m UAS** products. Its new alternatives and replacements provide equivalent functionality and include extra possibilities. The new models AsteRx-m2 and AsteRx-m2 UAS deliver multi-constellation (GPS, GLO, BDS, GAL and IRNSS) and satellite technology with software upgrade possibilities.

For a complete list of affected part numbers and the associated replacement part numbers, please refer to the table below:
